Frontend-focused Full-Stack Developer with three years of freelance production delivery building React and Next.js interfaces in TypeScript and modern JavaScript (ES6+): component-based UIs, state management with Zustand and TanStack Query, and responsive styling with Tailwind CSS and Material UI. Ships features end to end, from UI through Node.js/Express.js APIs and deployment, with a strong DSA foundation (LeetCode 1,430 contest rating) and hands-on AI-augmented development with Claude Code. Final-year B.Tech CSE student (expected 2027) with live products in front of real users.

Core Competencies

- **React Frontend Development**: React, Next.js, TypeScript, component-based architecture - UIs broken into reusable components across logistics, quiz, and tracking dashboards.
- **JavaScript Depth**: Object-oriented JavaScript with ES6+ (classes, modules, async/await, closures) as the daily language across every project shipped.
- **Styling & UI Systems**: HTML5, CSS, Tailwind CSS, Material UI - responsive, production-styled interfaces delivered for web clients.
- **State & Data Flow**: Zustand, TanStack Query, WebSockets/Socket.IO - client state, server caching, and live UI updates (leaderboards, real-time dashboards).
- **Full-Stack Context**: Node.js, Express.js, REST APIs, MongoDB/PostgreSQL - understands the API contract behind every interface built.
- **Engineering Rigor**: Git workflows, GitHub Actions CI/CD, Docker - clean, versioned, deployable code owned end to end.
- **AI-Augmented Development**: develops daily with Claude Code for coding, testing, and faster debugging.

Professional Experience

Cashbackwallah — **Remote / client project**
Freelance Full-Stack Developer — *Jan 2026 - Aug 2026*

- Architected and deployed a production logistics platform from scratch (Next.js, React, TypeScript, Express.js, PostgreSQL with Prisma): courier rate comparison, shipment booking, order management, and a multi-level franchise commission system - 1,000+ orders processed.
- Built the customer-facing flows end to end: KYC-gated order placement, wallet and transaction views, payout and refund screens, and webhook-driven status updates.
- Owned end-to-end deployment and DevOps for the platform. Demo: cashbackwallah.com

Dream10.in — **Remote / client project**
Freelance Full-Stack Developer — *Mar 2025 - Nov 2025*

- Shipped a production real-time quiz platform to partners (Next.js, React, Node.js, Redis, RabbitMQ, WebSockets): live leaderboards, anti-cheat mechanisms, automated payment/payout processing.
- Built fault-tolerant services for high-concurrency event handling; managed CI/CD deployment and real-time WebSocket communication. Demo: dream10.in

- **Lead Tracking System** **Remote / client project**
  Freelance Full-Stack Developer (Ongoing Maintenance) *May 2023 - Present*
  - Built an affiliate lead-tracking platform (2024), still maintained and extended on demand: real-time dashboards, automated fraud detection, webhook/postback handling, payment processing, Telegram alerts, role-based access control.
  - Scaled background processing with RabbitMQ, Redis, and Node.js Cluster; implemented production monitoring with Prometheus, Grafana, and Loki. Demo: panel5.logicpay.in

Independent Projects

- **Independent project**
  CodeLab *Jun 2025*
  - Collaborative coding platform (Next.js, React, Node.js, Express, Docker, Yjs CRDT, WebSockets): real-time multi-user editing, invite-based collaboration, and contest timers.
  - Docker-sandboxed code execution service with testcase management and customizable coding rooms.

- **Independent project**
  Data Vault *Mar 2025*
  - Privacy-focused file manager (Next.js, Node.js, MongoDB, Telegram Bot API): chunk-based encrypted storage with resumable uploads.
  - Secure file sharing with search, pagination, and folder organization.

Education

- **GLA University** **Mathura, India**
  B.Tech in Computer Science and Engineering *2023-2027*
  In progress, expected 2027. Key topics: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks.

Languages

- Hindi (native), English (professional working proficiency).

Honors and Awards

- **Finalist** – WebX Frontend Challenge.
- **4th place** – WebForge.
- **4th place** – Code Arambh.
- **LeetCode** – 1,430 contest rating.
