Gaurav Chaudhary

Mathura, Uttar Pradesh, India

Phone: +91-8077598311 | Email: gauravmrjatt4@gmail.com | LinkedIn | GitHub | Portfolio

Full-Stack Developer with over three years of hands-on experience building production web applications in React, Next.js, Node.js, and TypeScript. Comfortable owning features end to end, from user interface through backend APIs, databases, and deployment, once clear specifications are in place. B.Tech CSE in progress, expected 2027; LeetCode 1,430 contest rating.

Education

GLA University **Mathura, India**
B.Tech, Computer Science and Engineering *2023-2027*
In progress, expected 2027. Coursework: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks.

Core Competencies

Languages: TypeScript, JavaScript, Python, Java, SQL, PHP | **Frontend:** React 19, Next.js 15/16, responsive web UI, Tailwind CSS, Material UI, Zustand, TanStack Query | **Backend:** Node.js, Express.js, REST, GraphQL (Apollo), WebSockets, Kafka, RabbitMQ, JWT, Auth0 | **Data:** PostgreSQL, MongoDB, MySQL, Redis; Prisma, Mongoose, Zod | **DevOps & Cloud:** Docker, NGINX, GitHub Actions CI/CD, AWS EC2, Linux, Coolify | **Testing & Observability:** automated test suites, Prometheus, Grafana, Loki, Sentry

Professional Experience

Cashbackwallah - Remote / client project
Freelance Full-Stack Developer *Jan 2026 - Aug 2026*

- Built and deployed a production logistics platform from scratch (Next.js, TypeScript, Express.js, Prisma, PostgreSQL): courier rate comparison, shipment booking, order management, and a multi-level franchise commission system - 1,000+ orders processed.
- Built franchise and courier flows covering KYC-gated onboarding, wallet and transaction ledger, and automated payouts on top of Razorpay, Firebase OTP, Redis, and Sentry integrations.
- Integrated Shiprocket for courier rate comparison and shipment booking across the logistics flow.
- Implemented Razorpay signature verification, webhook processing, and scheduled refund workflows; franchise users earn referral commission and request withdrawals through the Next.js 16 client.
- Owned end-to-end deployment and DevOps for the platform; open-source codebase of about 59,000 lines with 145 REST endpoints and 23 Prisma models. Demo: cashbackwallah.com; Repo: github.com/Gauravmr-jatt/cheapship

Dream10.in - Remote / client project
Freelance Full-Stack Developer *Mar 2025 - Nov 2025*

- Shipped a production real-time quiz platform to partners (Next.js, Node.js, Redis, RabbitMQ, WebSockets): live leaderboards, anti-cheat mechanisms, automated payment and payout processing.
- Built fault-tolerant services for high-concurrency event handling; managed CI/CD deployment and the real-time delivery path to partner integrations. Demo: dream10.in
- Developed partner-facing quiz and leaderboard screens using Next.js.

Lead Tracking System - Remote / client project
Freelance Full-Stack Developer (Ongoing Maintenance) *May 2023 - Present*

- Built a production affiliate lead-tracking platform in 2023 and still maintain and extend it: real-time dashboards, automated fraud detection, webhook and postback handling, payment processing, Telegram alerts, role-based access control.
- Scaled background processing with RabbitMQ, Redis, and Node.js Cluster, with a payout queue that keeps slow payouts off the request path; production monitoring with Prometheus, Grafana, and Loki.
- Maintains the open-source codebase (31,000 lines, 107 REST endpoints, 12 models, 10-file automated test suite, Redis-cached hot reads). Demo: panel5.logicpay.in
- Maintains dashboards for affiliates and payout monitoring.

Selected Projects

- **TicketHub**: Next.js 15 + React 19 ticketing app with 16 endpoints and 5 models; live at ticket-hub-ten.vercel.app
- **EcoFinds**: marketplace application, live at eco-finds-sage.vercel.app
- **Data Vault** (Mar 2025): privacy-focused file manager (Next.js, Node.js, MongoDB) with chunk-based encrypted storage, resumable uploads, and search; 80 components. Demo: datavault-two.vercel.app
- **CodeLab** (Jun 2025): collaborative coding platform with a Docker-sandboxed judge, CRDT-based real-time editing over WebSockets, and contest management; about 32,000 lines. Demo: codelab.logicpay.in
- **School** (Nov 2025 - Present): school management API using Apollo GraphQL with WebSocket subscriptions over 10 Prisma models; Kafka and Redis pub/sub. Repo: github.com/Gauravmrjatt/School
- **NEET Counsellors** (Jun 2026 - Aug 2026; dates from GitHub, client/ownership confirmation pending): counselling platform (Next.js, Payload CMS) plus a rule-based college predictor pipeline (rank, category, quota to college list). Repo: github.com/Gauravmrjatt/neet
- **OSM Fortress** (May 2026): gift-code distribution service with proof-of-work gating, anti-scraping layers, and device fingerprints; 66 routes, about 58,000 lines. Repo: github.com/Gauravmrjatt/osm-forest
- **Earning Area** (Aug 2021): gamified rewards platform (PHP, MySQL, Paytm API) with task-based earnings, a referral system, and automated reward distribution; first end-to-end payment integration, built in high school. Demo: earningarea.org
- **Tod AI**: 45-component web application; live.
- **tg-bot**: Telegram group-management bot.

Honors and Awards

- **AWS Cloud Computing Certification** - JOVAC, GLA University & Technical Guftgu (2025).
- **Finalist** - WebX Frontend Challenge (2024); **4th place** - WebForge national web development competition (2025); **4th place** - Code Arambh (2024).
- **LeetCode** - 1,430 contest rating.

Languages: Hindi (native), English (professional working proficiency).
