Professional Experience

Cashbackwallah - Remote / client project
Freelance Full-Stack Developer *Jan 2026 - Aug 2026*

- Built and deployed a production logistics platform from scratch (Next.js, TypeScript, Express.js, Prisma, PostgreSQL): courier rate comparison, shipment booking, order management, multi-level franchise commission system - 1,000+ orders processed.
- Designed and implemented the Next.js 16 frontend with React 19: responsive dashboards, real-time order tracking, franchise onboarding flows, and wallet/ledger UIs using Tailwind CSS and Zustand.
- Integrated Shiprocket, Razorpay, Firebase OTP, Redis, and Sentry: payment signature verification, KYC-gated orders, automated payouts, webhook processing, scheduled refund workflows.
- Handled end-to-end deployment and DevOps; open-source codebase of about 59,000 lines with 145 REST endpoints and 23 Prisma models. Demo: cashbackwallah.com; Repo: github.com/Gauravmrjatt/cheapship

Dream10.in - Remote / client project
Freelance Full-Stack Developer *Mar 2025 - Nov 2025*

- Shipped a production real-time quiz platform to partners (Next.js, Node.js, Redis, RabbitMQ, WebSockets): live leaderboards, anti-cheat mechanisms, automated payment and payout processing.
- Built the real-time frontend experience: WebSocket-driven live leaderboards, contest timers, and partner-facing dashboards with sub-second updates under high concurrency. Demo: dream10.in

Lead Tracking System - Remote / client project
Freelance Full-Stack Developer (Ongoing Maintenance) *May 2023 - Present*

- Built and maintain a production affiliate lead-tracking platform: real-time dashboards, automated fraud detection, webhook/postback handling, payment processing, Telegram alerts, role-based access control.
- Scaled background processing with RabbitMQ, Redis, and Node.js Cluster; payout queue keeps slow payouts off the request path; production monitoring with Prometheus, Grafana, and Loki.
- Maintains the open-source codebase (31,000 lines, 107 REST endpoints, 12 models, 10-file automated test suite, Redis-cached hot reads). Demo: panel5.logicpay.in
